

"The Revelation Of The Pyramids" takes an in depth look into one of the seven wonders of the world, the Great Pyramids of Egypt. Mystery has surrounded these epic structures for centuries with theories varying from the scientific to the bizarre.

However with over thirty-seven years of in depth research taking in sites from China, Peru, Mexico and Egypt, one scientist has at last managed first to understand and then to reveal what lies behind this greatest of archaeological mysteries: a message of paramount importance for all mankind, through time and space.

For the serious student of the Vedas this comes as no surprise. Vedic culture has been spread all over the globe as little as 5,000 years ago. During the reign of Maharaja Yudisthira the entire world was under one flag and society was many times more advanced than today. During the greatest of all battles at Kuruksetra *brahmastras*, nuclear like weapons, were used and could be initialised by sound vibration only. This is just one of the many examples of an highly advanced civilisation of which we have not much knowledge today except through the Vedas. This video connects the dots.
